Men are alot like infants. If you want to shut them up, put your boobs in their mouth.

We do not believe in ourselves until someone reveals that deep inside us something is valuable, worth listening to, worthy of our trust, sacred to our touch. Once we believe in ourselves we can risk curiosity, wonder, spontaneous delight or any experience that reveals the human spirit.

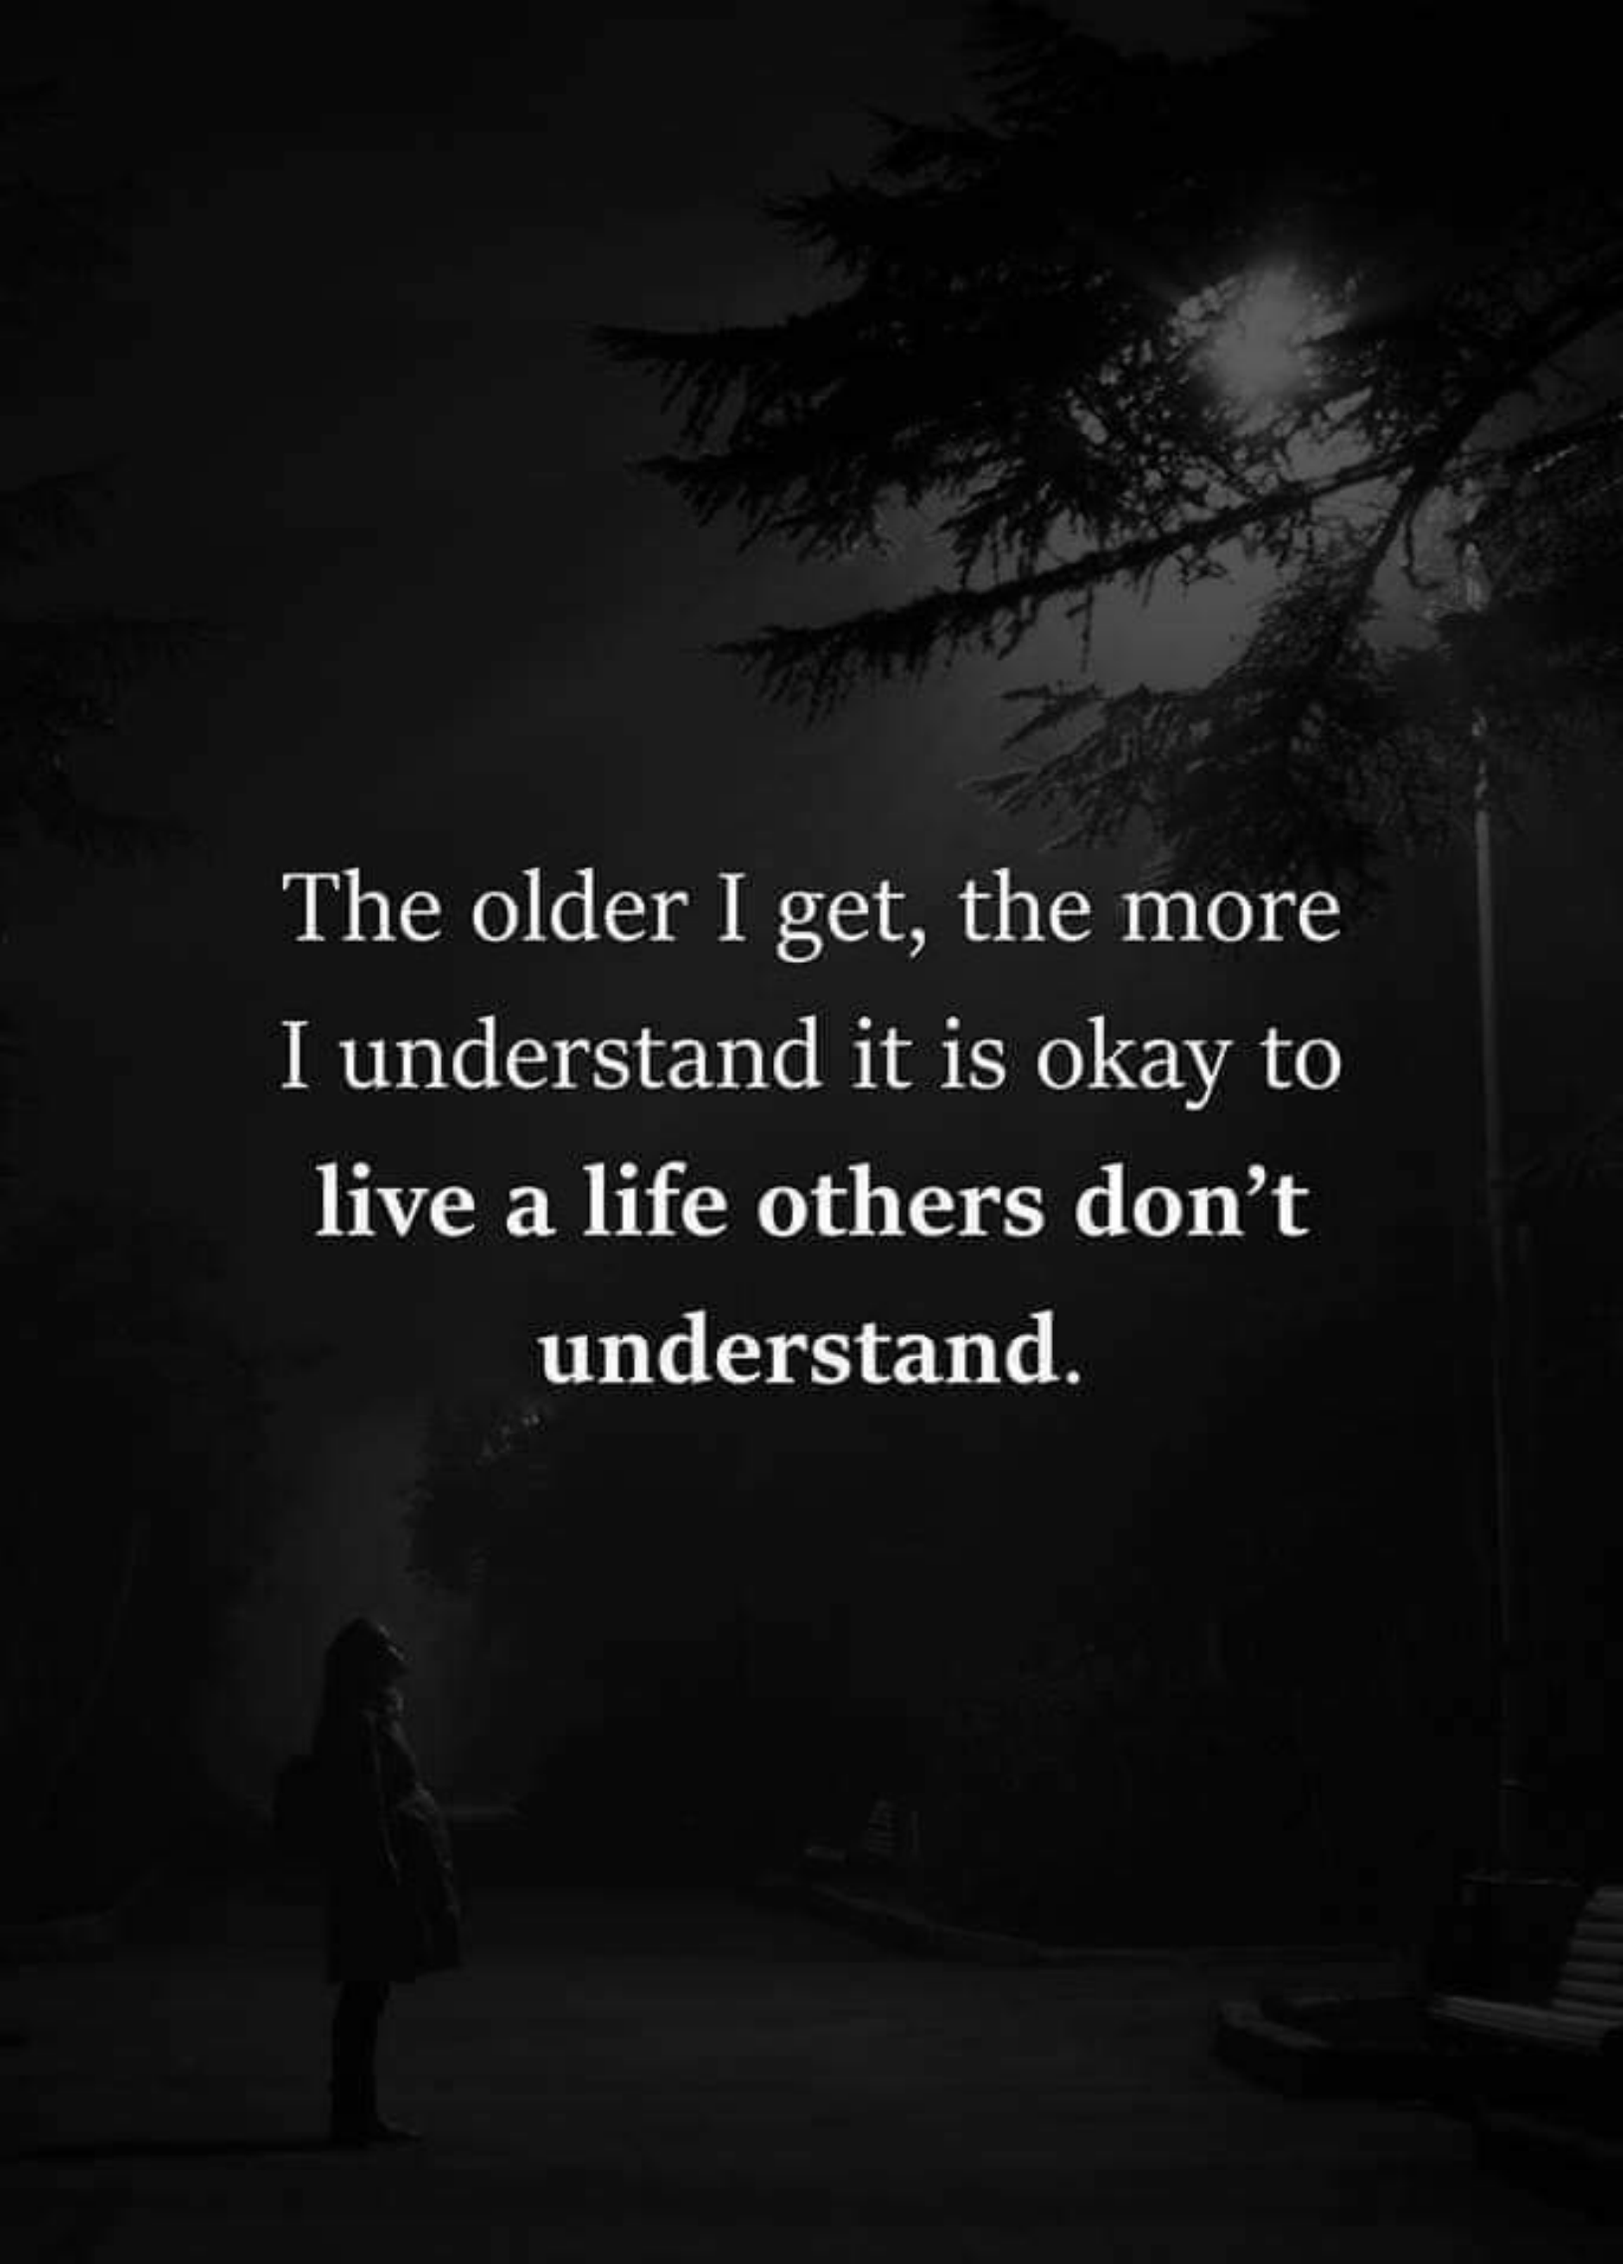
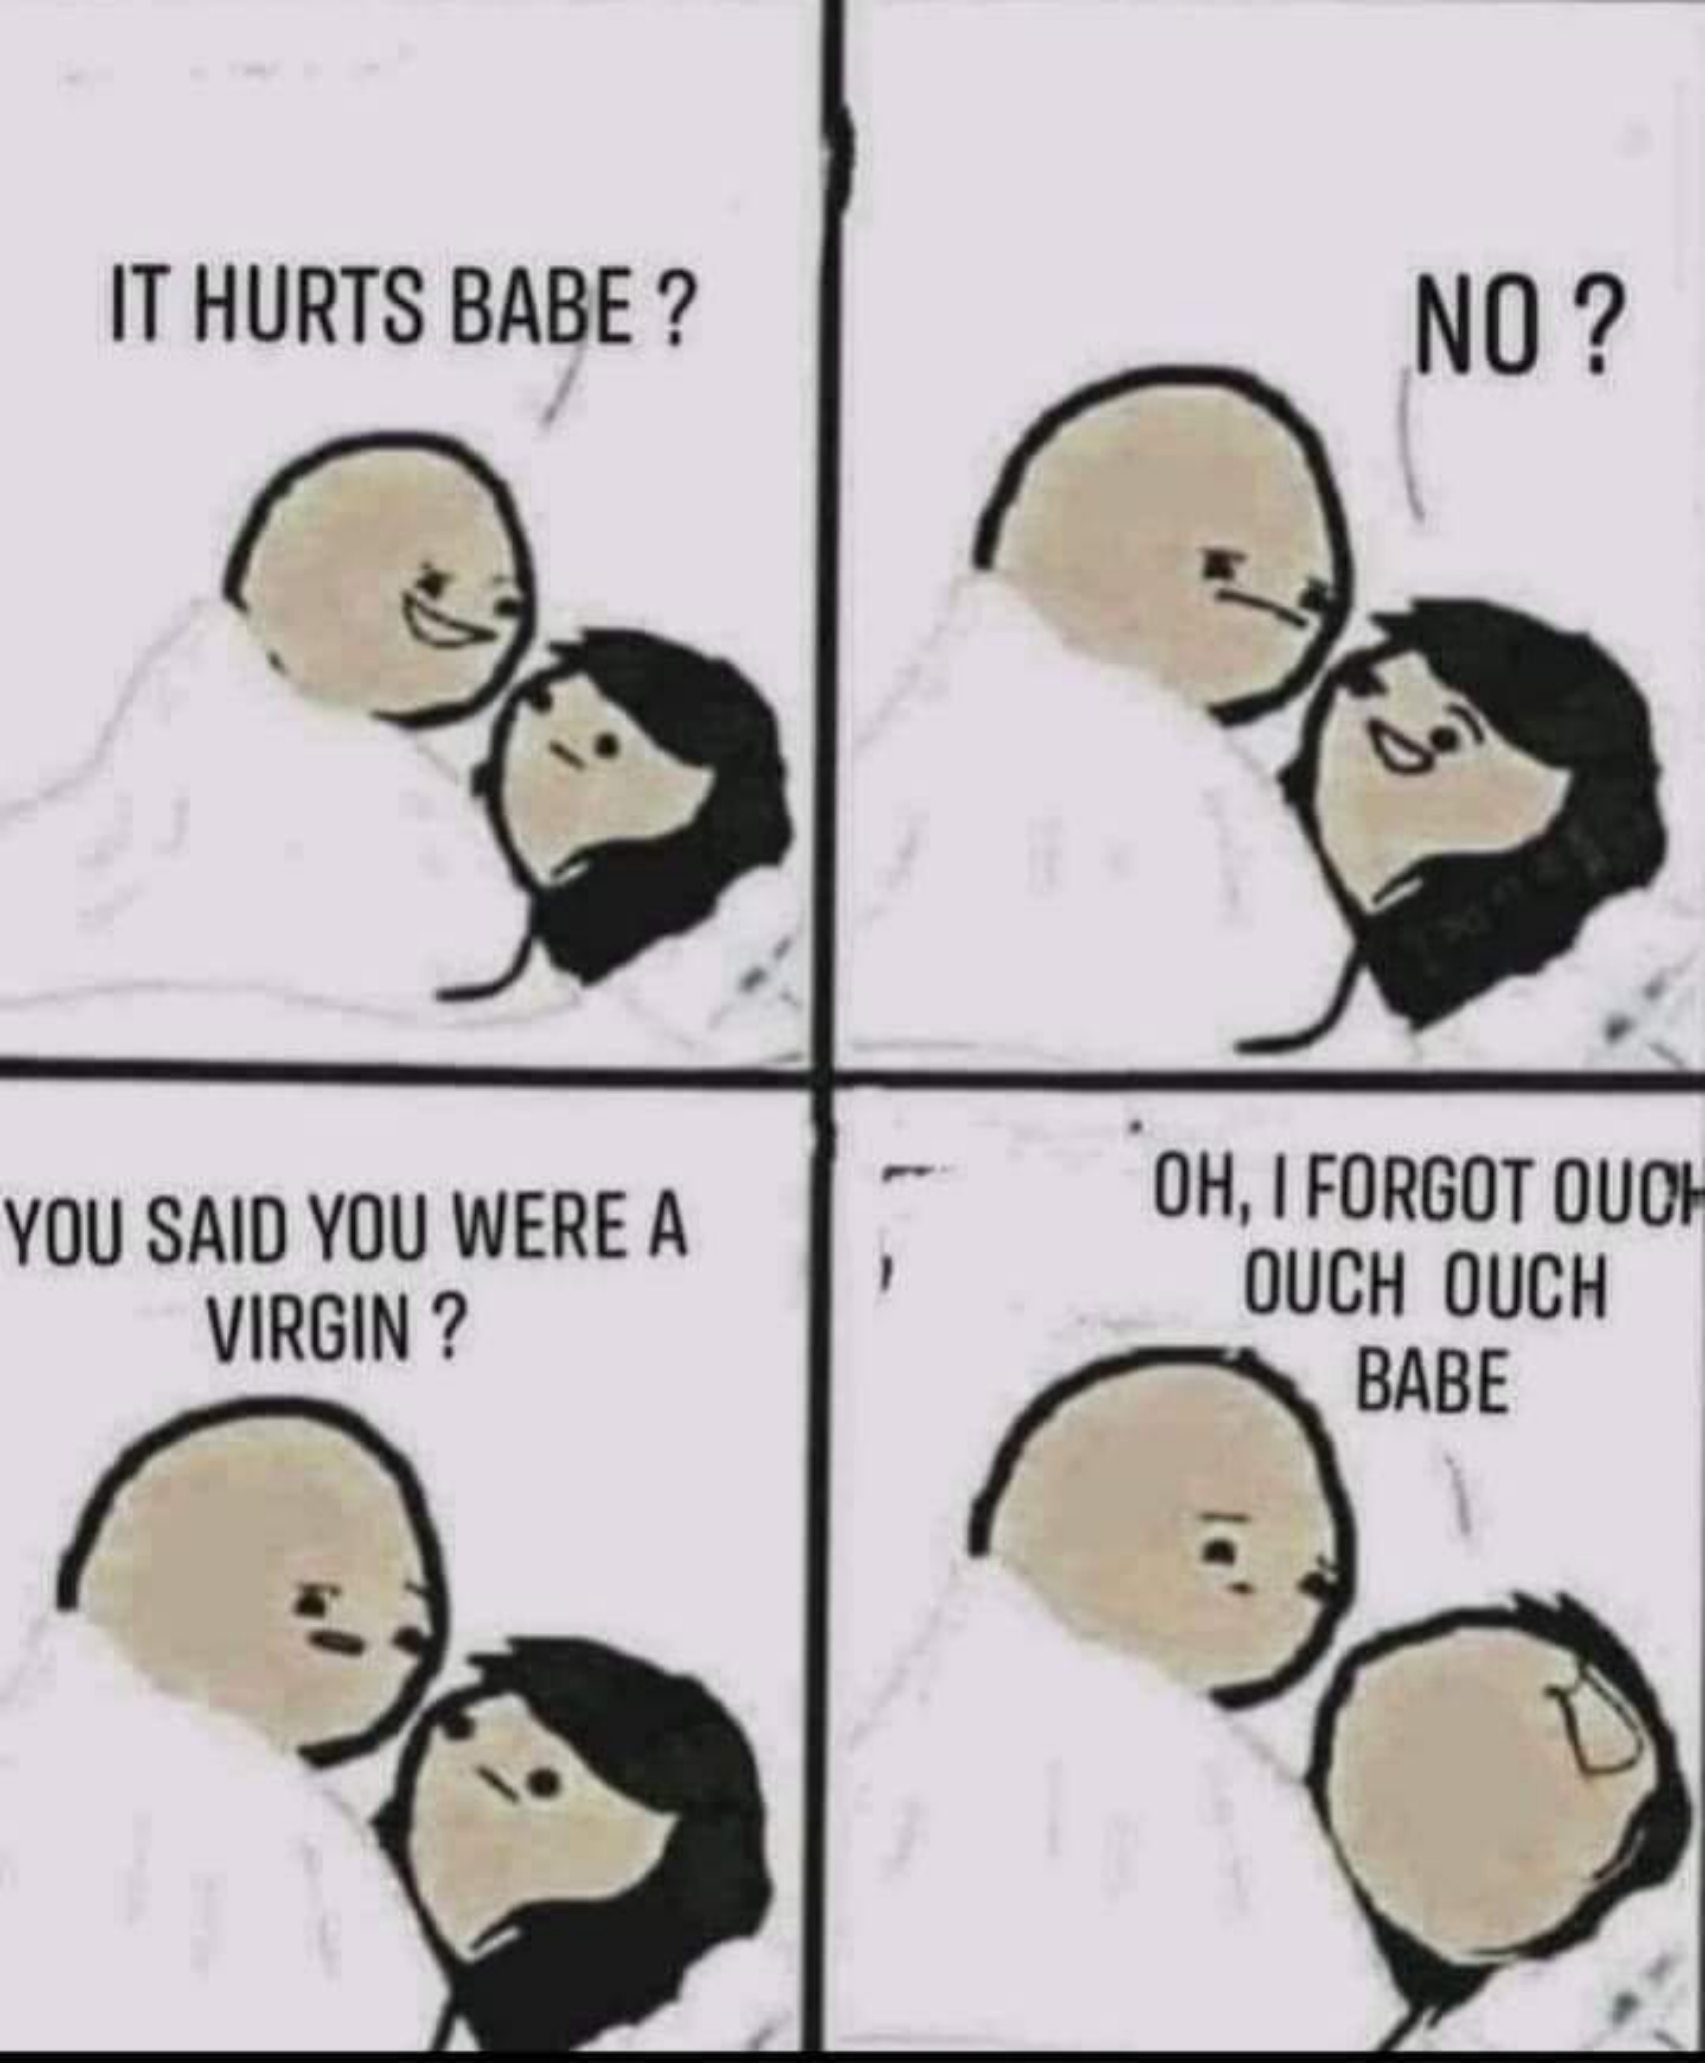
WHAT MAKES YOU HAPPY DOESN'T NEED APPROVAL FROM ANYONE ELSE.

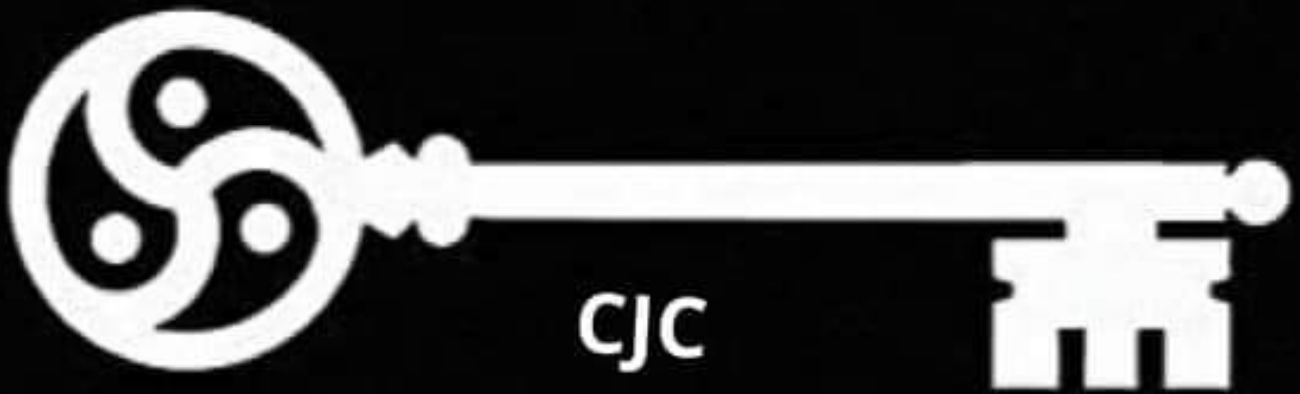


The older I get, the more
I understand it is okay to
live a life others don't
understand.



IT HURTS BABE ?
NO ?
YOU SAID YOU WERE A VIRGIN ?
OH, I FORGOT OUCH OUCH OUCH BABE

Learn how to touch her
In ways that have nothing
to do with sex but, rather



Everything to do with comfort,
Understanding and protection

When you're talking vs when she become your girlfriend

You disrespect yourself when you beg someone for bare minimum things like love, attention, affection, support, reciprocation, etc. Don't do that shit again.

ALL I SAID
WAS,
I SWALLOW!

What you and i have
doesn't have to be
understood by others.
Your princess
It's for Us....
not them.

You come to me like something
I never knew was missing
but so desperately needed.
You come to me like the pristine
heavens opened up and dropped
you into my arms.
Like two lovers fated by stars
and destiny colliding upon
impact.
You come to me as a universe
of love unveiled in your dark
mysteries.
You come to me as the very heart,
the very soul of me.

Arouse me mentally
so I can feel you
spiritually
then when we touch
physically
we'll fall in sync
soulfully.

sloppy jalopy

A sloppy jalopy is a **sexual** act for partners very comfortable with each other. During **fellatio**, when the man is about to **climax**, he pushes the girl away, cums in his own hand and smacks the girl in the face with it. This is called a sloppy jalopy.

One man can teach you that all men are not the same.

What is Etiquette

Etiquette simply means how to behave in various situations.

Etiquette relates to a code of behaviour among people within an organisation, group or society

- Knowing/ respecting people's customs and traditions
- Observing certain behaviour and actions when in a group of people
- Observing appropriate manners

Always Remember:

Your behaviour and manners should consistently correspond with your well groomed image

Dominance and submission (also called **D/s**) is a set of behaviors, customs, and rituals involving the submission of one person to another in an erotic episode or lifestyle. It is a subset of BDSM.

Physical contact is not necessary, and D/s can be conducted anonymously over the telephone, email, or other messaging systems. In other cases, it can be intensely physical, sometimes crossing into sadomasochism. In D/s, both parties take pleasure or erotic enjoyment from either dominating or being dominated. Those who take the superior position are called dominants—Doms (male) or Dommes (female)—while those who take the subordinate position are called submissives—or subs (male or female). A switch is an individual who plays either role. Two switches together may negotiate and exchange roles several times in a session. A dominatrix is usually a female sex worker who dominates others for pay.

It is common for writers to capitalise the "D" in Dominant but leave the "s" in lowercase for the submissive. Many extend this to His/Hers, Him/Her, He/She, etc., to make it clear when they are referring to a Dominant.

Sadomasochism (SM) refers to the combination of sadism (inflicting pain) and masochism (receiving pain) to derive pleasure and sexual gratification. It can include the infliction of or submitting to physical or emotional pain.

If used in a sane and consensual relationship, dancing the fine line between pleasure and pain can be very erotic and gratifying.

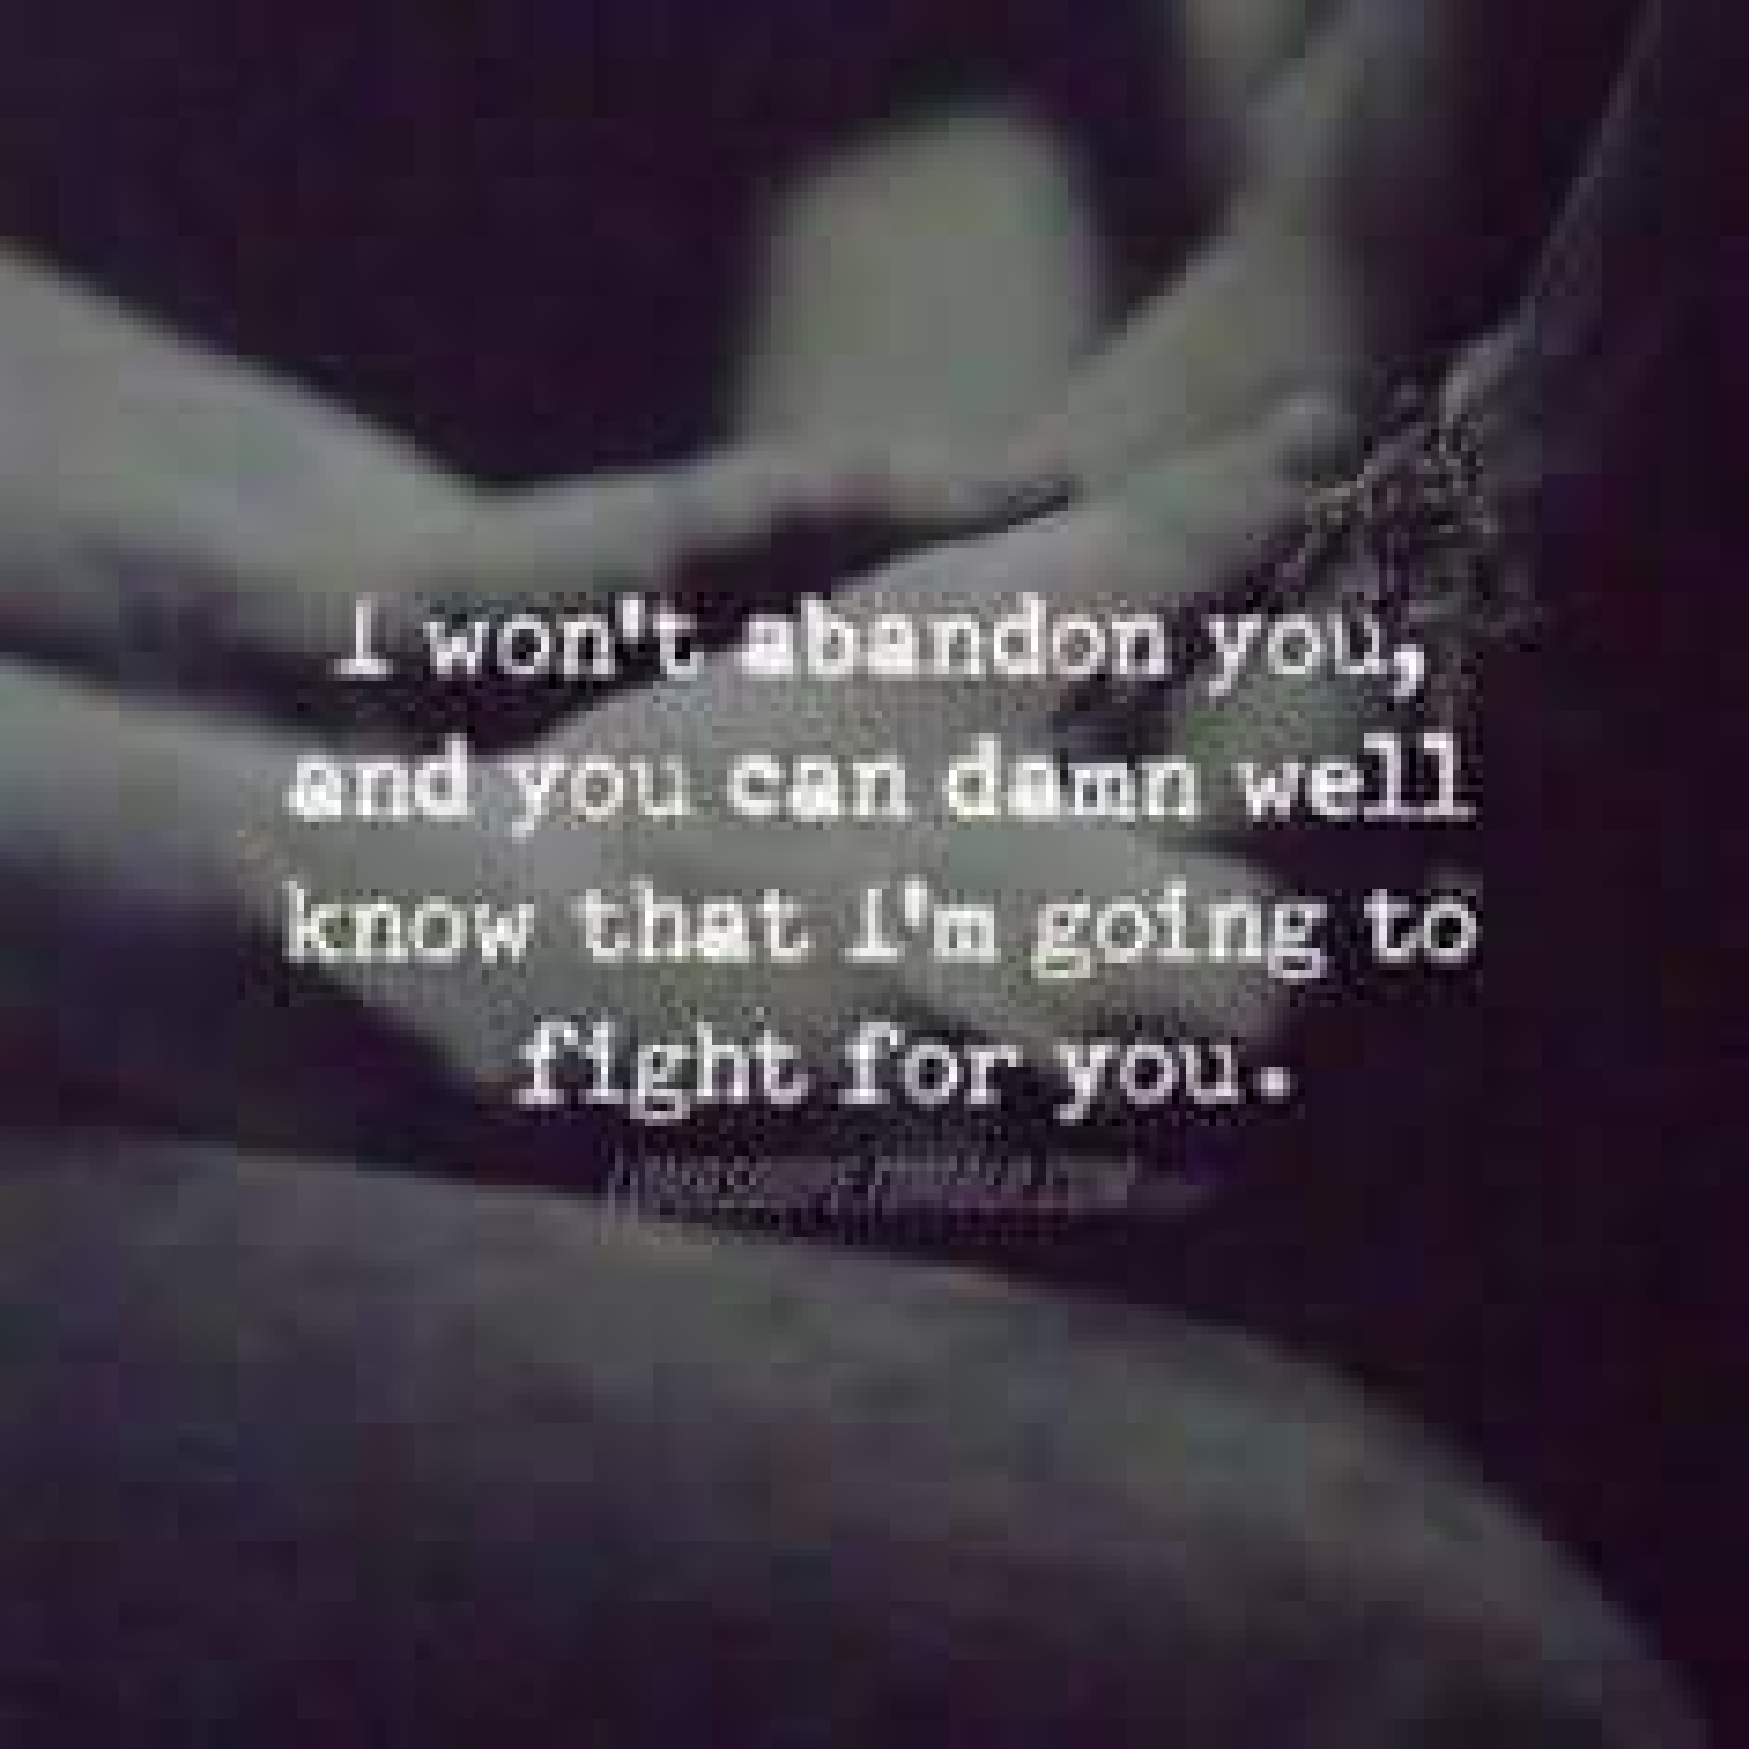
Naked

My greatest moment of intimacy , was not the evening we took all our clothes off. But it was when you saw me at my most difficult state. Like how you witnessed the most unlovable parts of me. As I slowly unraveled each imperfection in front of you like a scar. And despite all of this, you loved me harder anyway.

- Conee Berdera

You cannot find your special someone by giving your time to just anyone that interests you. Hurricanes are interesting, so are tornadoes, and earthquakes, and tsunamis. That doesn't mean you should build a home in the middle of one. Wait for that sunshine that shows its face just after the storm has settled and cleared. Wait for your time to love again patiently. It doesn't come along everyday. That's a part of why it is so special. Let Mother Nature do her job. In the meantime, go ahead and get your house in order.



I won't abandon you,
and you can damn well
know that I'm going to
fight for you.

1. Have your partner put their hands together with the fingers slightly apart

2. Lark's head.

3. Loop loosely around hands.

4. If you wish, you can lock this loop at this stage, but it isn't necessary.

5. Pull the tail up and go around hands between the thumb and forefinger...

6. ...and back to where you started.

7. Pull the tail between wrists on the elbow side, so that the lead is now on the thumb side.

8. Pull a little of the tail up

What is Therapy Spanking?

CONSENTING ADULTS ONLY

Therapy Spanking is a type of spanking where the goal is emotional release instead of purposes of sexual foreplay or punishment.
Communication is an absolute must for this to truly be effective. There needs to be talking before, during and after the spanking.

What is the Job of the Spanker? You as the Spanker needs to be calm and the spanking needs to be firm and consistent in rhythm, you may need to encourage your spankee to talk, cry out as you spank, letting them know that they are safe and not being judged. You need to pay attention to the body language and cries of the spankee you are charged with their vulnerability and need to be able to notice if its getting too intense for them and help pull them back.

What is the Job of the Spankee? You as the Spankee needs to feel comfortable and feel free to kick, struggle and say what ever it is they feel they need to say. This is your time, a time where you can let go of being in charge and let yourself free to express the emotions you may be too afraid of otherwise. Let yourself have a moment where you are no longer in charge and let your vulnerability show.

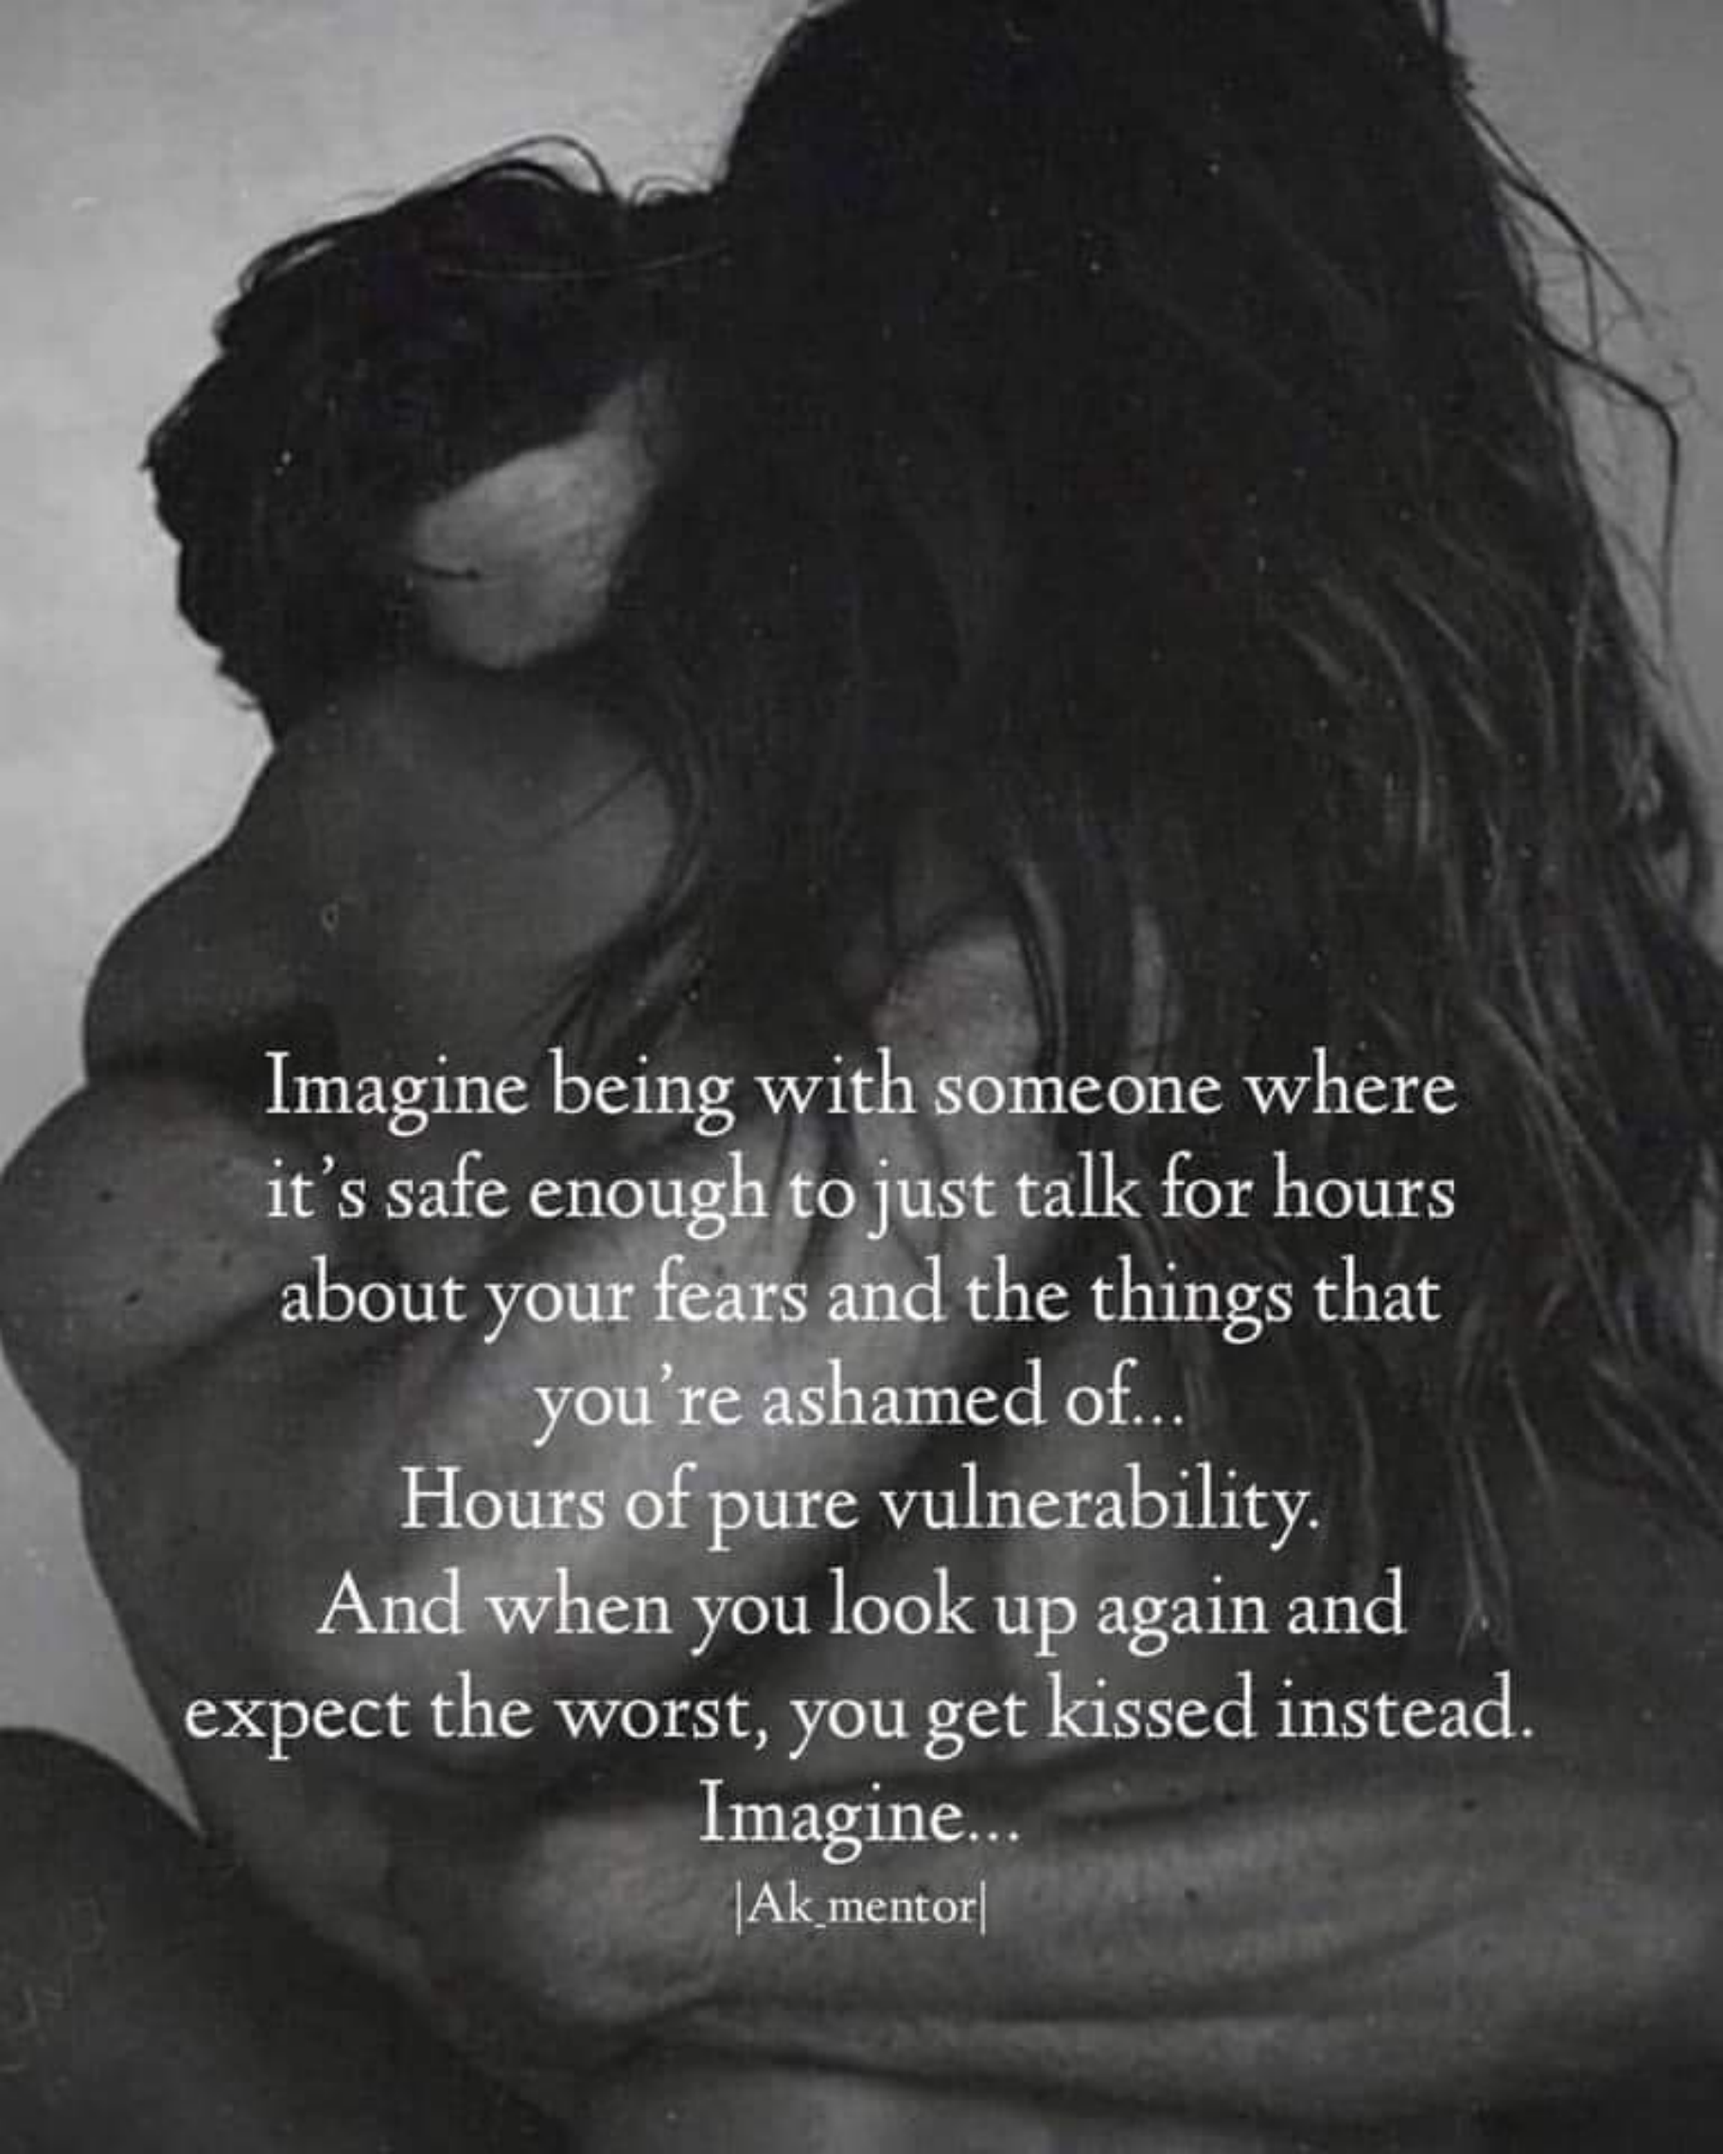
Boobs are proof that men can focus on two things at once.



Imagine being with someone where
it's safe enough to just talk for hours
about your fears and the things that
you're ashamed of...
Hours of pure vulnerability.
And when you look up again and
expect the worst, you get kissed instead.
Imagine...

Intimacy is not purely physical:

It's the act of connecting with someone so deeply, you feel like you can see into their soul.

The number of people who say they take their anger into domspace is alarming. Be it on twitter, reddit, tiktok YouTube anything. NEVER take anger into a scene or session. if you are angry with the person or angry in general DO NOT dom anyone until you are in a better head space
